MARIYA GEORGE

Mathilel(H), Njandupara P.O, Pala, Kottayam, Kerala, India - 686577 | +91 6235069263 | mariyageorge.tech@gmail.com | LinkedIn | GitHub

CAREER OBJECTIVE

Full-stack software developer pursuing an Integrated MCA (graduating 2027), with experience designing scalable applications, RESTful APIs, and relational databases. Skilled in clean coding and OOP/SOLID principles, with one application successfully deployed to production. Passionate about Agile development, continuous learning, and contributing to collaborative, cross-functional teams.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, C++, C

Frameworks & Technologies: React.js, Node.js, .NET Core, PHP, HTML5, CSS3, RESTful APIs, JSON

Databases: MySQL, SQL, Relational Database Design & Data Modelling, MongoDB, Firebase

Cloud & Deployment: AWS EC2, Server Deployment

Developer Tools: Git, GitHub, Version Control

Software Engineering Practices: SDLC, Agile/Scrum, OOP, SOLID, Clean Code, Unit Testing, Debugging, Code Reviews, Design Discussions

EXPERIENCE

Software Development Intern - Ainsoft Solutions *Jun 2026 - Jul 2026*

Thiruvananthapuram, Kerala

- Implemented full-stack e-commerce features using .NET Core and React.js, applying clean code and OOP/SOLID principles to build reusable RESTful APIs and integrations.
- Collaborated with developers and QA through code reviews and design discussions, contributing to defect detection, testing, and resolution to deliver production-ready, reliable functionality within an Agile/Scrum workflow.

Blockchain Developer Intern - Kerala Blockchain Academy *Sep 2024 - Nov 2024*

- Built EduFund, a decentralized scholarship platform - designed, wrote, and tested Solidity smart contracts using Hardhat, and integrated them with a React.js frontend via MetaMask authentication, applying reusable, testable coding practices throughout.

PROJECTS

ScholarNexus AI - Final-Year Project (Ongoing) *Jul 2026 - Present*

React.js, Node.js, MongoDB, REST APIs

- Developing an AI-powered academic literature search platform, architecting the backend with Node.js, a RESTful API layer, and MongoDB schema design to support retrieval-augmented academic literature queries.

StitchAndStory *Sep 2025 - Oct 2025*

PHP, MySQL, JavaScript, AWS EC2 | github.com/mariyageorge/StitchandStory

- Architected and deployed a scalable, full-stack e-commerce platform on AWS EC2, applying data modelling best practices to design a normalized MySQL schema, and implementing authentication, catalog, cart, and order-management functionality with reusable, maintainable code for production readiness.

Church Account Management System (Live in Production) *Apr 2025 - Jun 2025*

Flutter, Firebase

- Built and deployed a cross-platform accounting system with Flutter and Firebase featuring real-time data synchronization; live in production and in active use by a local organization, with ongoing maintenance and defect resolution.

LifeSync *Feb 2025 - Apr 2025*

PHP, MySQL, JavaScript, HTML/CSS, AWS EC2 | github.com/mariyageorge/miniproject

- Designed and built a full-stack productivity web application with PHP and MySQL, applying relational data modelling across task management, expense tracking, and scheduling modules.

EDUCATION

MCA Integrated | CGPA: 8.86 | 2022 - 2027 (Anticipated) | Amal Jyothi College of Engineering (Autonomous), affiliated with APJ Abdul Kalam Technological University

Class XII | St. John Nephumsian's HSS | 96.4% | 2020 - 2022

Class X | Jyothi Public School | 96% | 2020

CERTIFICATIONS

- Scrum Fundamentals Certified (SFC) - ScrumStudy
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle
- Oracle Certified Foundations Associate - Oracle
- Develop GenAI Apps with Gemini and Streamlit - Google

ACHIEVEMENTS

- District-Level Winner, Young Innovators Programme (YIP 6.0), Government of Kerala - awarded INR 25,000 for project innovation
- Recipient of I2U (Idea to Utility) funding, Phase 2 (Ongoing), College-Funded Interdisciplinary Project
- Finance Team Volunteer, NASA Space Apps Challenge 2025 - global hackathon and tech community event
